

Trail Walk Presentation

(Boston and Worcester Airline Trail)

Wednesday, February 6th

1:30pm

Don Burn of the Town of Westborough Bicycle and Pedestrian Advisory Committee will present a talk on the Boston and Worcester Airline Trail (BWALT), a proposed multi-use trail from Framingham to Worcester. The talk will look at the history of the trolley and the railroad whose right-of-ways are used for the trail. A discussion of the economic benefits of the trail and the planned route will be included. Don Burn has been building trails in the area for over 20 years. Don envisioned the Westborough Charm Bracelet walking trail, and the BWALT multi-use trail. Additionally, Don was active in the development of the maps for paddling the Assabet, Sudbury and Concord rivers, and in the creation of the Boroughs Loop Trail through Marlborough, Southborough, Westborough, and Northborough.

Don will also present a short guide to walks that can be done on the BWALT now.
