

Fun With the Ukulele

Is learning to play the ukulele on your Bucket List?

Dan Meraux introduces basic chords and strumming on the ukulele to accompany traditional folk songs and also more modern tunes. No experience is needed, just a willingness to learn something new and have fun playing and singing familiar music. Beginners and intermediate level players will also enjoy this class. Bring your own ukulele or purchase one from the Guitar Center in Natick or from Amazon. They have beginner kits including ukulele, gig bag, instruction manual and tuner starting at around \$45.
